## COPAYMENT SUMMARY

Western Health Advantage shall cover Prescription medications at Participating Pharmacies, prescribed in connection with a covered service and subject to conditions, limitations and exclusions stated in the Combined Evidence of Coverage and Disclosure Form (EOC/DF) located on the MyWHA Plan toolbar at [mywha.org](http://mywha.org).

Medications on a member's **three-tier prescription plan** are categorized as follows in WHA's **Preferred Drug List (PDL)**:

- Tier 1 – Preferred generic and certain preferred brand name medication
- Tier 2 – Preferred brand name and certain non-preferred generic medication\*
- Tier 3 – Non-preferred (generic or brand) medication\*

The PDL is a listing of medications developed by WHA's Pharmacy and Therapeutics Committee as drugs of choice in their respective tiers. Drugs are evaluated regularly by the committee to ensure rational and cost-effective use of pharmaceutical agents. The committee reviews all medications for their efficacy, quality, safety, similar alternatives and cost in determining their inclusion on the PDL.

Please note that a drug's presence on the WHA PDL does not guarantee that the member's physician will prescribe the drug. There are a small number of drugs, regardless of tier, that may require prior authorization to ensure appropriate use based on criteria set by the committee.

Members may request a copy of the PDL by calling WHA Member Services or view the document online at [mywha.org/pharmacy](http://mywha.org/pharmacy).

Non-injectable specialty medication may be classified on Tiers 1-3. Regardless of tier, all specialty medications are limited to a 30-day supply.

Prescription copayments contribute to the medical annual out-of-pocket maximum.

\*Regardless of medical necessity or generic availability, the member will be responsible for the applicable copayment when a Tier 2 or Tier 3 medication is dispensed. If a Tier 1 medication is available and the member elects to receive a Tier 2 or Tier 3 medication without medical indication from the prescribing physician, the member will be responsible for the difference in cost between the Tier 1 and the purchased medication in addition to the Tier 1 copayment. The amount paid for the difference in cost does not contribute to the medical out-of-pocket maximum.

\*\*Percentage copayments are based upon WHA's contracted rates with the provider of service.
