

Sacramento County
Deferred Compensation Plan

Invest in your retirement—and yourself—today, with help from the Deferred Compensation Plan and Fidelity.

YOUR GUIDE TO GETTING STARTED

Invest some of what you earn today for what you plan to accomplish tomorrow.

It is our pleasure to offer you the opportunity to enroll in the Deferred Compensation Plan. Your retirement savings plan offers a convenient, tax-advantaged way to save for retirement.

Benefit from:

Convenience. Your contributions are automatically deducted regularly from your paycheck.

Tax savings now. Your pretax contributions are deducted from your pay before income taxes are taken out. This means that you can actually lower the amount of current income taxes you pay each period. It could mean more money in your take-home pay versus saving money in a taxable account.

Tax savings later. In addition to pre-tax contributions, you are also able to make after-tax contributions through the Roth option available in the 457 plan.

Investment options. You have the flexibility to select from investment options that range from more conservative to more aggressive, making it easy for you to develop a well-diversified investment portfolio.

Online beneficiary. With Fidelity's Online Beneficiaries Service, you can designate your beneficiaries, receive instant online confirmation, and check your beneficiary information virtually any time.

Catch-up contributions. If you make the maximum contribution to your plan account, and you are 50 years of age or older during the calendar year, you can make an additional "catch-up" contribution of \$6,000 in 2019. In addition, during one or more of the last 3 years before normal retirement age, you may be limited to using the greater of the 457 "last-3-years" catch-up or the age 50 catch-up.

To learn more about what your plan offers, see "Frequently asked questions about your plan" later in this guide.

Sincerely,

Fidelity Investments

Enroll in your plan and invest in yourself today.

Frequently asked questions about your plan.

Here are answers to questions you may have about the key features, benefits, and rules of your plan.

When can I enroll in the Plan?

There is no waiting period. You can enroll in the Plan at any time.

How do I enroll in the Plan?

Enroll online at any time, or by calling the Fidelity Retirement Benefits Line at 1-800-343-0860.

What is the Roth contribution option?

A Roth contribution to your retirement savings plan allows you to make after-tax contributions and take any associated earnings completely tax free at retirement - as long as the distribution is a qualified one. A qualified distribution, in this case, is one that is taken at least five tax years after your first Roth contribution and after you have attained age 59½, or become disabled or die. Through automatic payroll deduction, you can contribute between 1% and 100% of your eligible pay as designated Roth contributions, up to the annual IRS dollar limits.

Find more information online within the "Library" section of NetBenefits®.

How much can I contribute?

Through automatic payroll deduction, you may contribute up to 99% of your eligible pay on a pretax basis, up to the annual IRS dollar limits.

What is the IRS contribution limit?

You may defer \$19,000, the maximum IRS limit in 2019, which applies to all employee and employer contributions in all 457 plans in which you participate.

When is my enrollment effective?

Your enrollment becomes effective once you elect a deferral percentage, which initiates deduction of your contributions from your pay. These salary deductions will generally begin with your next pay period after we receive your enrollment information, or as soon as administratively possible.

How do I designate my beneficiary?

If you have not already selected your beneficiaries, or if you have experienced a life-changing event such as a marriage, divorce, birth of a child, or a death in the family, it's time to consider your beneficiary designations. Fidelity's Online Beneficiaries Service, offers a straightforward, convenient process that takes just minutes. To make your elections, click on the "Profile" link, then select "Beneficiaries" and follow the online instructions.

What are my investment options?

To help you meet your investment goals, the Plan offers you a range of options. You can select a mix of investment options that best suits your goals, time horizon, and risk tolerance. The many investment options available through the Plan include conservative, moderately conservative, and aggressive funds. A complete description of the Plan's investment options and their performance, as well as planning tools to help you choose an appropriate mix, are available online.

What if I don't make an investment election?

We encourage you to take an active role in the Deferred Compensation Plan and choose

investment options that best suit your goals, time horizon, and risk tolerance. If you do not select specific investment options in the Plan, your contributions will be invested in the Vanguard Target Retirement Trust I with the target retirement date closest to the year you might retire, based on your current age and assuming a retirement age of 65, at the direction of County of Sacramento.

If no date of birth or an invalid date of birth is on file at Fidelity your contributions may be invested in the Vanguard Target Retirement Income Trust I. More information about the Vanguard Target Retirement Trust I options can be found online.

Target Date Funds are an asset mix of stocks, bonds and other investments that automatically becomes more conservative as the fund approaches its target retirement date and beyond. Principal invested is not guaranteed.

What "catch-up" contribution can I make?

You may elect to make a last-3-years catch-up contribution of up to double the contribution limit in effect (up to \$38,000 in 2019). This contribution may be used in one or more of the three consecutive years prior to the year in which you attain normal retirement age under the Plan. This option gives you an opportunity to catch-up on contributions you could have made but did not make in previous years. See your Employee Benefits Office for more information.

When am I vested?

You are always 100% vested in your own contributions to the Deferred Compensation Plan.

Can I take a loan from my account?

Although your plan account is intended for the future, you may borrow from your account for any reason. Generally, the Deferred Compensation Plan allows you to borrow up to 50% of your vested account balance. The minimum loan amount is \$1,000, and a loan must not exceed \$50,000. You then pay the

money back into your account, plus interest, through the Automated Clearing House (ACH) Service in monthly equal installments. Any outstanding loan balances over the previous 12 months may reduce the amount you have available to borrow. You may have two loans outstanding at a time. The cost to initiate a loan is \$35.00, and there is a quarterly maintenance fee of \$3.75. The initiation and maintenance fees will be deducted directly from your individual plan account. If you fail to repay your loan (based on the original terms of the loan), it will be considered in "default" and treated as a distribution, making it subject to income tax and possibly to a 10% early withdrawal penalty. Defaulted loans may also impact your eligibility to request additional loans. Be sure you understand the plan guidelines and impact of taking a loan before initiating a loan from your plan account.

Learn more about and/or request a loan online, or by calling the Fidelity Retirement Benefits Line at 1-800-343-0860.

Fees

The County will deduct a quarterly fee for administrative and recordkeeping services, determined by your account balance at the close of the prior quarter, as detailed in the chart below:

Account Fees	
Plan account balance is equal to or less than \$5,000	\$12 per year (\$3.00 per quarter)
Plan account balance is greater than \$5,000 and equal to or less than \$150,000	\$90 per year (\$22.50 per quarter)
Plan account balance is greater than \$150,000	\$240 per year (\$60.00 per quarter)

Fees may be changed based on market conditions and participant balances.

Can I make withdrawals?

Withdrawals from the Plan are generally permitted when you have a severance from

employment, reach age 70½, have an unforeseeable emergency, or in the case of plan termination.

Any assets distributed from your governmental 457(b) plan will be taxed as ordinary income in the year withdrawn. If the distribution is eligible to be rolled over, but is not directly rolled over to an eligible plan or IRA, 20% mandatory withholding of federal income tax applies. Federal income tax will not be withheld if an eligible plan-to-plan transfer is made to another employer's 457(b) plan that accepts the transfer. Be sure you understand the federal and state tax consequences of any distribution before you initiate one. You may want to consult your tax adviser about your situation.

Learn more about and/or request a withdrawal online, or by calling the Fidelity Retirement Benefits Line at 1-800-343-0860.

Can I move money from another retirement plan into my account in the Deferred Compensation Plan?

You are permitted to roll over eligible pretax contributions from another 401(k) plan, 401(a) plan, 403(b) plan or a governmental 457(b) retirement plan account or eligible pretax contributions from conduit individual retirement accounts (IRAs). A conduit IRA is one that contains only money rolled over from an employer-sponsored retirement plan that has not been mixed with regular IRA contributions.

Additional information can be obtained online, or by calling the Fidelity Retirement Benefits Line at 1-800-343-0860.

Be sure to consider all your available options and the applicable fees and features of each before moving your retirement assets.

Where can I find information about exchanges and other plan features?

Learn about loans, exchanges, and more online. In particular, you can access loan modeling tools that illustrate the potential

impact of a loan on the long-term growth of your account. You will also find a withdrawal modeling tool, which shows the amount of federal income taxes and early withdrawal penalties you might pay, along with the amount of earnings you could potentially lose by taking a withdrawal. Additional information can be obtained by calling the Fidelity Retirement Benefits Line at 1-800-343-0860.

Target date investments are generally designed for investors expecting to retire around the year indicated in each investment's name. The investments are managed to gradually become more conservative over time. The investment risks of each target date investment change over time as its asset allocation changes. They are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risks associated with investing in high yield, small cap and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates.

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity's analysis of the characteristics of the general investment categories of the investment options and not on the actual security holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options' Morningstar categories as of 01/31/2019. Morningstar categories are based on a fund's style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options' objectives and do not predict the investment options' future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category, and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decision. Fidelity® Investments Money Market Government Portfolio - Institutional Class

VRS Code: 002642

Fund Objective: Seeks to obtain as high a level of current income as is consistent with the preservation of principal and liquidity within the limitations prescribed for the fund.

Fund Strategy: The Adviser normally invests at least 99.5% of the fund's total assets in cash, U.S. Government securities and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash or government securities). Certain issuers of U.S. Government securities are sponsored or chartered by Congress but their securities are neither issued nor guaranteed by the U.S. Treasury. Investing in compliance with industry-standard regulatory requirements for money market funds for the quality, maturity, liquidity and diversification of investments. The Adviser stresses maintaining a stable \$1.00 share price, liquidity, and income. In addition the Adviser normally invests at least 80% of the fund's assets in U.S. Government securities and repurchase agreements for those securities.

Fund Risk: *You could lose money by investing in the fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Fidelity Investments and its affiliates, the fund's sponsor, have no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.* The fund will not impose a fee upon the sale of your shares, nor temporarily suspend your ability to sell shares if the fund's weekly liquid assets fall below 30% of its total assets because of market conditions or other factors. Interest rate increases can cause the price of a money market security to decrease. A decline in the credit quality of an issuer or a provider of credit support or a maturity-shortening structure for a security can cause the price of a money market security to decrease.

Fund short term trading fees: None

Who may want to invest:

- Someone who has a low tolerance for investment risk and who wishes to keep the value of his or her investment relatively stable.
- Someone who is seeking to complement his or her bond and stock fund holdings in order to reach a particular asset allocation.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- Initial offering of the Fidelity® Institutional Money Market Government Portfolio - Institutional Class took place on May 14, 2014. Returns and expenses prior to that date are those of the Fidelity® Institutional Money Market Government Portfolio - Class I. Had Fidelity® Institutional Money Market Government Portfolio - Institutional Class expenses been reflected in the returns shown, total returns would have been higher.
- Fidelity is voluntarily reimbursing a portion of the fund's expenses. If Fidelity had not, the returns would have been lower.

Wells Fargo Stable Value Fund E

VRS Code: 882736

Fund Objective: The stable value portfolio seeks stability of principal and consistency of returns with minimal volatility.

Fund Strategy: The stable value portfolio invests in financial instruments that seek to provide participants with a stable crediting rate and safety of principal plus accrued interest. These include guaranteed investment contracts (GICs), security backed contracts (GIC Alternatives), and separate account GICs. Underlying the security backed contracts and separate account GICs are fixed income (bond) portfolios. The fixed income portfolios may include investments in, but not limited to, U.S. Treasury and agency bonds, corporate bonds, mortgage-backed securities, asset-backed securities, and bond funds. All bonds in the underlying portfolios are rated investment grade by one of the major rating agencies (Moody's, S&P, Fitch) at time of purchase. The fund may also invest in cash or cash equivalents.

Fund Risk: The Contracts and securities purchased for the fund are backed solely by the financial resources of the issuers of such Contracts and securities. An investment in the fund is not insured or guaranteed by the manager(s), the plan sponsor, the trustee, the FDIC, or any other government agency. The Contracts purchased by the fund permit the fund to account for the fixed income securities at book value (principal plus interest accrued to date). Through the use of book value accounting, there is no immediate recognition of investment gains and losses on the fund's securities. Instead, gains and losses are recognized over time by periodically adjusting the interest rate credited to the fund under the Contracts. However, while the fund seeks to preserve your principal investment, it is possible to lose money by investing in this fund. The Contracts provide for the payment of certain withdrawals and exchanges at book value during the terms of the Contracts. In order to maintain the Contract issuers' promise to pay such withdrawals and exchanges at book value, the Contracts subject the fund and its participants to certain restrictions. For example, withdrawals prompted by certain events (e.g., layoffs, early retirement windows, spin-offs, sale of a division, facility closings, plan terminations, partial plan terminations, changes in laws or regulations) may be paid at the market value of the fund's securities, which may be less than your book value balance.

Certain investment options offered by your plan (e.g., money market funds, short term bond funds, certain asset allocation/lifecycle funds and brokerage window) may be deemed by the Contract issuers to "compete" with this fund. The terms of the Contracts prohibit you from making a direct exchange from this fund to such competing funds. Instead, you must first exchange to a non-competing fund for 90 days. While these requirements may seem restrictive, they are imposed by the Contract issuers as a condition for the issuer's promise to pay certain withdrawals and exchanges at book value.

Fund short term trading fees: None

Who may want to invest:

- Someone who seeks a slightly higher yield over the long term than is offered by money market funds, but who is willing to accept slightly more investment risk.
- Someone who is interested in balancing an aggressive portfolio with an investment that seeks to provide stability of price.

Footnotes:

- The investment option is a stable value fund. It is managed by Galliard Capital Management. This description is only intended to provide a brief overview of the fund.
- This investment option is not a mutual fund.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 11/02/1998. The returns are provided by Morningstar and reflect the historical performance of the oldest, eligible share class of the Pool with reported expenses and an inception date of 10/01/1985, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) The adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the Pool itself. Please refer to a Pool's offering materials for information regarding its' fees and expenses.

Metropolitan West Total Return Bond Fund Plan Class

VRS Code: 889080

Fund Objective: The investment seeks to maximize long-term total return.

Fund Strategy: The fund pursues its objective by investing, under normal circumstances, at least 80% of its net assets in investment grade fixed income securities or unrated securities that are determined by the Adviser to be of similar quality. Up to 20% of the fund's net assets may be invested in securities rated below investment grade. The fund also invests at least 80% of its net assets plus borrowings for investment purposes in fixed income securities it regards as bonds.

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest dividends rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Vanguard Total Bond Market Index Fund Institutional Shares

VRS Code: 844511

Fund Objective: The investment seeks the performance of Bloomberg Barclays U.S. Aggregate Float Adjusted Index.

Fund Strategy: Bloomberg Barclays U.S. Aggregate Float Adjusted Index represents a wide spectrum of public, investment-grade, taxable, fixed income securities in the United States-including government, corporate, and international dollar-denominated bonds, as well as mortgage-backed and asset-backed securities-all with maturities of more than 1 year. All of its investments will be selected through the sampling process, and at least 80% of its assets will be invested in bonds held in the index.

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Fidelity® Contrafund® K6

VRS Code: 002946

Fund Objective: Seeks capital appreciation.

Fund Strategy: Normally investing primarily in common stocks. Investing in securities of companies whose value Fidelity Management & Research Company (FMR) believes is not fully recognized by the public. Investing in domestic and foreign issuers. Investing in either "growth" stocks or "value" stocks or both. Using fundamental analysis of factors such as each issuer's financial condition and industry position, as well as market and economic conditions, to select investments.

Fund Risk: Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

JPMorgan Equity Income Fund Class R6

VRS Code: 826649

Fund Objective: The investment seeks capital appreciation and current income.

Fund Strategy: Under normal circumstances, at least 80% of the fund's assets will be invested in the equity securities of corporations that regularly pay dividends, including common stocks and debt securities and preferred stock convertible to common stock. "Assets" means net assets, plus the amount of borrowings for investment purposes. Although the fund invests primarily in securities of large cap companies, it may invest in equity investments of companies across all market capitalizations.

Fund Risk: Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is comfortable with the volatility of large-cap stocks and value-style investments.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

-

JPMorgan Small Cap Equity Fund Class R6

VRS Code: 857770

Fund Objective: The investment seeks capital growth over the long term.

Fund Strategy: Under normal circumstances, the fund invests at least 80% of its assets in equity securities of small cap companies. "Assets" means net assets, plus the amount of borrowings for investment purposes. Small cap companies are companies with market capitalizations equal to those within the universe of the Russell 2000[®] Index stocks and/or with market capitalizations of less than \$4 billion at the time of purchase.

Fund Risk: The securities of smaller, less well-known companies can be more volatile than those of larger companies. Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Parnassus Core Equity Fund - Institutional Shares

VRS Code: 819861

Fund Objective: The investment seeks to achieve both capital appreciation and current income.

Fund Strategy: The fund's objective is to achieve both capital appreciation and current income by investing primarily in a diversified portfolio of equity securities. Equity securities include common and preferred stock. Under normal circumstances, the fund will invest a minimum of 80% of its net assets (plus borrowings for investment purposes) in equity securities. At least 75% of the fund's total assets will normally be invested in equity securities that pay interest or dividends.

Fund Risk: Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Vanguard Extended Market Index Fund Institutional Shares

VRS Code: 847830

Fund Objective: The investment seeks to track a benchmark index that measures the investment return of small- and mid-capitalization stocks.

Fund Strategy: The fund employs an indexing investment approach designed to track the performance of S&P Completion Index, a broadly diversified index of stocks of small and mid-size U.S. companies. It invests by sampling the index, meaning that it holds a broadly diversified collection of securities that, in the aggregate, approximates the full index in terms of key characteristics. These characteristics include industry weightings and market capitalization, as well as certain financial measures, such as price/earnings ratio and dividend yield.

Fund Risk: Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

What is the Roth Governmental 457(b) Contribution Option?

A Roth contribution is available to employees who participate in the governmental 457(b) plan. For payroll purposes Roth contributions are treated as after tax. This feature will allow participants to make Roth contributions to their plan while taking their earnings completely **tax free** at retirement—as long as the withdrawal is a qualified one. A qualified withdrawal is one that can be taken five tax years after the year of the first Roth contribution *and* after the participant has attained age 59½, has become disabled, or has died.

If you qualify to make traditional governmental 457(b) contributions, you are eligible for a Roth governmental 457(b) contribution.

How does a Roth governmental 457(b) contribution option work?

You elect a percentage (or dollar amount) of your salary that you wish to contribute to the Roth source, just as you would for your traditional governmental 457(b). The contribution is based on your eligible compensation, not on your net pay—for example, if your total annual eligible compensation is \$40,000 per year and you elect a 6% deferral amount, then \$2,400 per year would go into your Roth governmental 457(b) account.

Unlike your traditional governmental 457(b) pretax contribution, with a Roth governmental 457(b) contribution, you pay the taxes now on the contributions you make—but later your earnings are all tax free, if you meet certain criteria.

Example: Sally earns \$40,000 and has elected to put 6% toward her Roth governmental 457(b) contributions and 6% toward her traditional governmental 457(b) pretax contributions on a monthly basis.

	ROTH GOVERNMENTAL 457(b)*	TRADITIONAL GOVERNMENTAL 457(b)*
Sally's monthly contribution into each account	\$200	\$200
Sally's reduction in take-home pay	\$200	\$150

*This hypothetical example is based solely on an assumed federal income tax rate of 25%. No other payroll deductions are taken into account. Your own results will be based on your individual tax situation.

Your combined Roth and traditional pretax governmental 457(b) contributions cannot exceed the IRS limits for the year.

Would a Roth governmental 457(b) contribution option benefit me?

The potential benefits of Roth governmental 457(b) contributions really depend on your personal situation, but are mainly focused on your existing tax rate and your anticipated tax rate at the time of retirement. If you are contributing to a Roth, you are giving up a tax break today for a tax break in the future.

Therefore, a Roth contribution might benefit you if your tax rate in retirement were **higher** than it had been during the years you contributed.

If your tax rate were **lower** in retirement, then a traditional governmental 457(b) might be more beneficial to you than the Roth option. Talk with a tax professional for more information on how to determine if Roth governmental 457(b) contributions are right for you.

Is a traditional pretax governmental 457(b) still beneficial?

Yes. For many participants a traditional pretax governmental 457(b) will still be the most beneficial type of retirement savings plan. We do not know what the future holds regarding tax rates. Therefore, it is not possible to predict with certainty which type of governmental 457(b) savings will be most beneficial to a participant.

Remember, because Roth governmental 457(b) contributions are made after tax, you may take home less money in your paycheck than you would if you contributed to a traditional pretax governmental 457(b).

Transfer/Rollover/Exchange Form Instructions

Reference the instructions below while completing the form. For additional assistance, please contact Fidelity Investments at 1-800-343-0860 or, for the hearing impaired, 1-800-259-9743 (TTY), Monday through Friday, 8 a.m. to midnight Eastern time (excluding New York Stock Exchange holidays, except Good Friday).

1. YOUR INFORMATION

Please provide your information in this section.

2. INVESTMENT PROVIDER YOU ARE MOVING MONEY FROM

Please review your most recent statement for this name and address, and include a copy of the statement with this form. **Please contact your previous investment provider to see if additional paperwork is required.**

3. ACCOUNT(S) OR CONTRACT(S) TO MOVE

Account or Contract Number: This number is available on your previous investment provider account statement. If you are unable to locate this number on your statement, please contact the investment provider. If you do not provide an account or contract number, we will use your Social Security number or U.S. Tax Identification number to request the assets to be moved.

Type of Account or Contract: If you are unsure of the type of account or contract, please contact the Previous Investment Provider or refer to your statement. Select at least one.

The Account or Contract Number is from: Please see the descriptions below that relate to each of the four transactions. If you choose "A Previous Employer," provide the name of that employer.

The Same Employer as My Employer Plan with Fidelity. Movement of assets from 403(b) to 403(b) will be requested as a vendor or contract exchange. Movement of money between the same plan types, excluding 403(b) plans [401(a) to 401(a), 401(k) to 401(k), 457(b) to 457(b)], will be requested as an in-plan transfer. Movement of money between different plan types will be requested as a rollover.

A Previous Employer. For 403(b) and 401(a)/(k) plans, this is a rollover transaction. For governmental 457(b) plans, this is a rollover unless Fidelity receives direction to process as a transfer.

A Rollover IRA. This is a rollover transaction. After-tax value may not be rolled from an IRA.

A Traditional IRA or SEP IRA. This is a rollover transaction. Roth IRAs and Coverdell IRAs cannot be accepted.

Liquidation Amount: Specify the amount of money you want moved to your Fidelity account. If you choose "Full Liquidation/100%," Fidelity will request your full balance. If you choose "Partial Liquidation," Fidelity will request the dollar amount or percentage you specify. **If you do not specify an amount, Fidelity will move/liquidate 100%.** If you are moving 457(b) assets, please be aware that governmental 457(b) assets must be moved into a governmental 457(b) plan, and nongovernmental 457(b) assets must be moved into a nongovernmental 457(b) plan. Transfers from nongovernmental 457(b) plans are not provided for on this form. Talk with your plan sponsor or call Fidelity to discuss transfers from nongovernmental 457(b) plans. Rollovers from 403(b) plans, 401(a)/401(k) plans, and IRAs to governmental 457(b) plans must be recordkept in separate rollover sources to limit the distributions that may be subject to a 10% early distribution penalty.

4. YOUR FIDELITY ACCOUNT INFORMATION

If you do not have a retirement account with Fidelity for the employer listed here, you must complete the enrollment process. For help with enrollment, please contact Fidelity at 1-800-343-0860 or for the hearing impaired 1-800-259-9743 (TTY).

Employer Sponsoring Your Fidelity Retirement Account: The employer name appears on your Fidelity account statement or in your enrollment paperwork.

Plan Type with this employer: This information is required to ensure that Fidelity credits your assets to the proper account. Please contact Fidelity at 1-800-343-0860 or for the hearing impaired 1-800-259-9743 (TTY) if you do not know your plan type.

Plan Number: Please provide the plan number if you have multiple retirement plan accounts with Fidelity. Please contact Fidelity at 1-800-343-0860 or for the hearing impaired 1-800-259-9743 (TTY) to obtain the plan number.

5. INVESTMENT INSTRUCTIONS

Would you like the assets invested in your current investment selection? If “Yes” is selected, your assets will be allocated to your current investment selection on file with Fidelity. If you do not select “Yes,” please list the fund names, fund codes (if known), and percentages. **Please ensure that the percentages equal 100%.** Please list any additional funds on a separate page and attach it to this form.

Fund Name: List the fund name(s) you want your assets credited to.

Fund Code: Provide the four-digit fund code(s) (if known).

Percentage: Please ensure that the percentages listed equal 100%.

Note: If no investment options are selected, your investment instructions are incomplete or invalid, or the percentages listed are less than or exceed 100%, your entire contribution will be defaulted to the investment elections on file with Fidelity. If you have no investment elections on file, your entire contribution will be defaulted to the investment option specified in the agreement currently in place with Fidelity for the Plan.

6. EMPLOYER PLAN ACCEPTANCE

8. SIGNATURE AND DATE

By signing this form:

- I hereby direct the investment provider identified on this form in Section 2 to liquidate the designated amount of the account(s) listed on this form, and to release the proceeds to my account under my employer's plan, except to the extent my current employer or any of my former employers prohibit such release. In the event of such prohibition, I hereby direct said investment provider to retain the portion of my account(s) that cannot be released in a separate account or contract and to release the remainder.
- I hereby agree to the terms and conditions stated in this form, including the instructions, and certify that I am requesting a vendor or contract exchange, in-plan transfer, or rollover, of my retirement plan assets in accordance with applicable IRS and plan rules.
- I certify under the penalties of perjury that my Social Security number or U.S. Tax Identification number on this form is correct.
- I certify that the information provided on this form is true, accurate, and complete to the best of my knowledge.
- I acknowledge that I have read the prospectus(es) for any mutual fund in which I invest and agree to the terms.
- I hereby agree that if my assets will be sent to Fidelity in installments, the first installment may be invested according to my instructions on this form. All subsequent installment payments as well as any residual balances not received within 30 days will be invested according to the investment elections currently in place with Fidelity for the Plan at the time my assets are received by Fidelity.
- I direct and authorize Fidelity to send a duplicate disposition letter for this request to the individual listed in Section 7, if applicable.

For 403(b)-to-403(b) vendor or contract exchanges

- I understand that any balances I am exchanging from a 403(b)(1) annuity into a 403(b)(7) custodial account may be subject to more restrictive withdrawal provisions.
- I understand that if I exchange a contribution source that is not allowed by the Plan, the value associated with the unacceptable source will be returned to the investment provider named in Section 2.
- I direct Fidelity to treat all monies as pretax contributions made subsequent to 12/31/88 unless my prior investment provider provides Fidelity with account balances as of 12/31/88 and post-1988 salary reduction contributions.
- I direct Fidelity to treat the entire balances as subject to minimum distribution requirements unless my prior investment provider provides Fidelity with account balances as of 12/31/86.
- I direct Fidelity to allocate the entire balance to the most restrictive source in the current employer's plan unless my prior investment provider provides Fidelity with the sources of the exchanged amount under the previous plan.
